Total:		Immediately	\$530,277	Does not include future interest

Important Messages

In May 2012, a neutral third-party Arbitrator ruled that the University "... violated the parties [contract] when the Universal U-Pass and FR fees were unilaterally imposed, resulting in tuition and fees waivers not being maintained at current rates/levels."

Academic Student Employees provide critical instruction to undergraduates and perform innovative research that helps bring in 1.5 billion dollars in research grants to UW.

To date, Michael Young and the University Administration are using public resources to challenge the arbitrator's decision rather than honoring its commitment under our collective bargaining agreement.

We continue to honor our commitment to maintain excellence and serve the community through our work. It's imperative that President Young and the UW Administration do the same.
